Upcoming Appearances

Featured in CNN Headline News for So Cal starting 10/25/10.

Speaking at the Bodhi Tree Book Store in West Hollywood on November 13th with Greg Larsen to discuss the "Gay Pain Body" and the works of Eckhart Tolle.

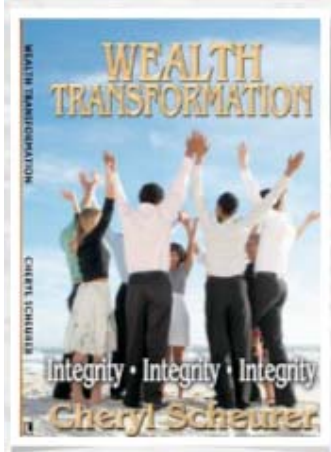

Originally hailing from San Jose, CA Peter Bedard is a true hybrid: actor, designer, community activist, and passionate alternative health investigator/ advocate.

Having survived an astounding five close-to-death experiences in his lifetime, learning how to walk (again), and healing himself from a number of medical conditions over the years (fibromyalgia, chronic pain, arthritis, learning to walk again, etc.), Peter has now turned his attentions to his personal passion for alternative health and healing.

Somewhere at the crossroad of Dr. Andrew Weil and the daredevils from Jackass lies Peter's new project, www.CreateYourHealth.com, where he will try out any alternative or traditional (indigenous) health practice he can track down. Whether they are off the shelf or off the wall – acupuncture, sound therapy, shamanism, witch doctors, stone throwers, scientists – Peter welcomes the opportunity to be a human guinea pig!

As an actor, you may have seen Peter on the big screen in Coffee Date, (starring Wilson Cruz, Sally Kirkland, and Jonathan Silverman), or in Tru Loved (with Alec Mapa, Bruce Vilanch, Jane Lynch, Alexandra Paul and Nichelle Nichols) or LA Actors (co-starring with Tony Shaloub). Peter also has a large internet presence with 40+ episodes on CreateYourHealth.com and as a writer on Examiner.com. Or perhaps you've seen his design work on the small screen on HGTV's Designer's Challenge, or live, annually, at the Beverly Hills' Geary's store.

As a community activist, Peter is responsible for founding the Manzanita Street Community Garden, and creating the Myra Avenue Mural Project. Sponsored by the Greater Griffith Park Neighborhood Council and the Franklin Hills Residents' Association, MAMP has so far created three murals, two with the students from the Thomas Starr King Middle School, with a goal of creating a minimum of three school murals within the Myra Avenue underpass and beyond.

Cal Orey

The healing powers of intuition also can provide peace of mind. But sometimes, my spiritual guides can be pesky or even "a curse" when I sense something negative will happen.

Positive thoughts, of course, can help heal ourselves and others and stop negative things from happening--but sometimes it is not enough and we must be like a fierce warrior and take action.

Cal Orey, once pigeon-holed as a "health and pets journalist," spread her wings in 2004. As a native Northern Californian, she penned the revolutionary book *The Man Who Predicts Earthquakes*. The author (with a B.A. and M.A. in English-Creative Writing from SFSU) learned during her research that she, an uncanny intuitive, can sense Earth changes and peoples' challenges around the globe. But that's not all...

These days, the Lake Tahoe-based writer's favorite forthcoming book--flowing with an edgy wit and anecdotal charm--*The Healing Powers of Honey* (Kensington, October 2011)--is an addition to the internationally popular "Healing Powers" series (Vinegar, Olive Oil, and Chocolate). The creative non-fiction health-related cookbooks have been translated into more than 15 languages, including Brazil, China, Czech, Hungary, Romania, Russia, South Korea, and Taiwan.

The "shake and bake" creator--with a gift of gab--has appeared in the media, including *Coast to Coast*, *KSFO*, *LA Talk*, *mnsbc.com*, *NewsMaxTV*, *NY Daily News*, *What's Cookin'?*, *WSJ.com*, *Tom Roten*, *msn.com* health and fitness, *Health*, *Complete Woman*, and *Woman's World*. As an author-intuitive, Cal shares her healing powers 24/7 no matter what rocks the world because her versatile talents rock on.

- Intimate telephone workshops of not more than 4 women, once a week.
- Live, in person workshops in LA, once a week.
- Private clients via telephone or in person.

Pegi's own financial free-fall five years ago is the foundation of understanding upon which the Financial Whisperer is based. Going through an expensive divorce, changing jobs, moving and surrendering a belief system that carried her all of her life finally caught up with her.

Her journey of healing and coming face-to-face with her own demons has taught her that what she went through is universal to most women. She intimately understands the pain, shame and fear that women over 40 can experience.

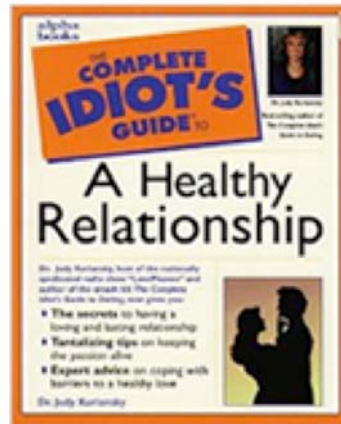

Her demanding curiosity of trying to understand people's motives makes her a great detective and has fine-tuned her intuition so much so, many call her: The 60-second insight coach.

She started the Financial Whisperer four years ago and when asked what is the best part of what she does, she replies: "Getting someone to have their A-HA moment."

Her passion is to teach, reveal, enlighten, share and nurture.

I am often asked how I went from being a meat cutter to becoming a successful business man, owning a large portfolio of profitable, successful businesses. The answer is the determination and passion. I had to have wealth and freedom, so I could live my life my way on my terms. I had made up my mind. I was determined to get what I want and nothing could stop me. The benefit for you is the knowledge I have gained.

I know what its like to risk all your savings, borrow money, mortgage the house, to spend every last dollar you have to open a new business, and the stress and family pressure that comes with it. To work long hours with little or no sleep and virtually no time off. To be away from your family, to miss important moments in your child's life. I know what it feels like to come home to a family that is some how disconnected from you because you have not been around much. I know this because this is my story. DO NOT let it become yours.

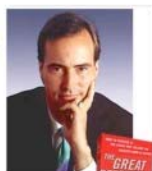

"If your having a problem or just want to increase your profits Kereakos is the man to speak to for sure."

Victoria, In the short 35 minutes that we spent working on a long held stress pattern in my upper shoulders, neck, jaw, face and tongue was resolved magically, and effortlessly with Resonance Repatterning. Typically throughout the day I would have felt myself literally clamping down on my jaw (teeth held tightly together) and have to remind myself to relax.

The real noticing came last night -- I would have clenched my teeth at night, and noticed I was NOT doing it, especially when I turned over in bed. NO MORE! Thank you for sharing this incredible work with me, and the world.

“To be successful you must fail. The most successful people on the planet have gone through major financial difficulties in their lives. Not everyone goes bankrupt but they all tend to go through periods of major financial hardship. The only solution I found in my case was to rebuild fast and keep focused on my long term goals. Have something to work towards. Allow yourself to grieve but not drown yourself in your sorrows.”

Michael Russo resigned his successful position as a commission only Insurance Sales Manager, working for W. Clement Stone's company Combined Insurance Company of America, in 2003 after reaching his goal to earn \$100,000 in a single year. He began, with his wife, to develop their own business. Initially based around property development and property trading he developed a multi-million dollar property portfolio in only a few short years. He expanded into retail stores, online sales and seminar workshops to name a few.

His biggest challenge was that of developing his retail laundry business in which he expanded to 4 stores within 18 months, one of which he was able to increase the sales turnover in excess of 800% in less than 2 years. Having no formal qualifications of any sort, beyond his high school certificate, the majority of his education has been in 'street smarts'.

At the age of 14 he began his first 'business', a lawn mowing round, with the help of his father. 12 years later, after having done over a decade of study in the area of business, self-development, motivation and wealth education, he made his first million at the age 26. Rapid expansion and exponential growth led to his downfall and by the age of 28 he was left homeless with his wife and two children for a short time and without an income source. After a grieving period he regained his confidence and rebuilt.
